filter cleaning by mag		ose use with automatic
Dust Class L VACUUM CLEANER 305-00371-000-001		
<image/>		OPTIONAL ACCESSORIES:
		11
Low air flow indicator light	35 liter tank	//
Variable speed for different conditions	35 liter tank	Accessories kit
Variable speed for different conditions Storage for accessories, hose and cable		305-00375-000-001
Variable speed for different conditions Storage for accessories, hose and cable Auto-start function for the connected power tool	MO	305-00375-000-001
Variable speed for different conditions Storage for accessories, hose and cable Auto-start function for the connected power tool Magnetic pluse automatic filter cleaning for maximum efficiency	MOI DS25L	305-00375-000-001 DEL DS35M
Variable speed for different conditions Storage for accessories, hose and cable Auto-start function for the connected power tool Magnetic pluse automatic filter cleaning for maximum efficiency Power consumption (max)	MOI DS25L	305-00375-000-001 DEL DS35M Watt
Variable speed for different conditions Storage for accessories, hose and cable Auto-start function for the connected power tool Magnetic pluse automatic filter cleaning for maximum efficiency Power consumption (max) Dust Class	MO DS25L 1600 L	305-00375-000-001 DEL DS35M Watt M
Variable speed for different conditions Storage for accessories, hose and cable Auto-start function for the connected power tool Magnetic pluse automatic filter cleaning for maximum efficiencyPower consumption (max)Dust ClassVolume Flow (Max) measured at the motor head	MO DS25L 1600 L 64	BOS-00375-000-001 DEL DS35M Watt M I/s
Variable speed for different conditionsStorage for accessories, hose and cableAuto-start function for the connected power toolMagnetic pluse automatic filter cleaning for maximum efficiencyPower consumption (max)Dust ClassVolume Flow (Max) measured at the motor headVolume Flow (Max) measured at the end of hose	MO DS25L 1600 L 64 42	BOS-00375-000-001 DEL DS35M Watt M I/s I/s
Variable speed for different conditionsStorage for accessories, hose and cableAuto-start function for the connected power toolMagnetic pluse automatic filter cleaning for maximum efficiencyPower consumption (max)Dust ClassVolume Flow (Max) measured at the motor headVolume Flow (Max) measured at the end of hoseVacuum (max.) measured at the motor head	MO DS25L 1600 L 64 42 259	BOS-00375-000-001 DEL DS35M Watt M I/s I/s bar
 [Variable speed for different conditions [Storage for accessories, hose and cable [Auto-start function for the connected power tool [Magnetic pluse automatic filter cleaning for maximum efficiency Power consumption (max) Dust Class Volume Flow (Max) measured at the motor head Volume Flow (Max) measured at the end of hose Vacuum (max.) measured at the motor head Vacuum (max.) measured at the end of hose 	MO DS25L 1600 L 64 42 259 230	BOS-00375-000-001 DS35M Watt M I/s I/s bar bar
 Variable speed for different conditions Storage for accessories, hose and cable Auto-start function for the connected power tool Magnetic pluse automatic filter cleaning for maximum efficiency Power consumption (max) Dust Class Volume Flow (Max) measured at the motor head Volume Flow (Max) measured at the end of hose Vacuum (max.) measured at the motor head Vacuum (max.) measured at the end of hose Container volume (max.)
